Frontend Developer | Mobile App Developer

PROFESSIONAL SUMMARY

Frontend & Mobile App Developer with **1.5+ years** of professional experience building cross-platform applications using React Native, Flutter, React.js and Next.js. Delivered **6+ production applications** across web, mobile and desktop. Experienced in state management (Redux, Flutter Bloc), UI performance optimization, responsive styling and third-party SDK integration. Moved into software development from a mechanical engineering background after completing a React.js certification at FITA Academy (Aug–Nov 2024), bringing a structured, QA-informed approach to shipping user-facing products.

TECHNICAL SKILLS

Mobile Development: React Native, Flutter
State Management: Redux, Flutter Bloc
Web Development: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3
Styling & UI: Tailwind CSS, Material UI, Responsive Design
Backend & Services: Firebase (Authentication, Firestore, Hosting), RESTful APIs
Tools & Workflow: Git (branching, pull requests, code reviews), GitHub, Postman
Testing & Quality: Manual QA Testing, Cross-Device UI Verification, Bug Tracking
Target Platforms: Web, Android, iOS, Desktop (Windows)
AI Workflows: AI prompting, Claude/GPT API & tool integration for workflow acceleration

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER & MOBILE APP ENGINEER

NiranSoft Technology Pvt. Ltd

March 2025 – Present

Ariyalur, Tamil Nadu

- Cross-Platform Development:** Architected and deployed cross-platform mobile apps for Android, iOS and Desktop using React Native and Flutter, maintaining **98% crash-free sessions**.
- Web Performance:** Built production web applications with Next.js and Tailwind CSS, applying optimization techniques that improved SEO scores and reduced page load times by **~25%**.
- State Architecture:** Implemented scalable state management with Redux and Flutter Bloc across multiple active codebases, resolving memory leaks and complex data-flow synchronization bugs.
- API & SDK Integration:** Integrated REST APIs, Firebase services and real-time third-party SDKs (including LiveKit video streams) to deliver live interactive features.
- Delivery Ownership:** Owned end-to-end delivery of **6+ client-facing applications** from concept to production release, meeting **100% of committed milestones**.
- AI-Accelerated Workflows:** Used AI prompting and tooling to automate boilerplate modules, cutting feature delivery time by roughly **30%**.

FRONTEND DEVELOPER INTERN

Netaxix

December 2024 – January 2025

Tamil Nadu

- Developed responsive web page layouts using HTML5, CSS3 and JavaScript, converting design mockups into pixel-accurate, cross-browser compatible interfaces.

- Implemented interactive UI behaviour with vanilla JavaScript (DOM manipulation, form validation, event handling) and supported the team with bug fixes and cross-device UI verification.

FEATURED PROJECTS

Sybo Avatar App — *React Native, LiveKit SDK*

Built a real-time video streaming app rendering custom avatars across platforms. Integrated the LiveKit SDK for low-latency voice/video streams, multi-user text chat and interactive UI modules.

Google Play — Sybo AI

Sybo Website — *PHP, JavaScript, Responsive Web*

Designed and developed the responsive corporate site at sybo.ai using optimized CSS/JS layouts.

Alley App — *Flutter, Flutter Bloc*

Built a visual asset portfolio application using Flutter Bloc to handle multi-tier asynchronous state. Optimized asset loading and added local image caching for smooth UI animations.

NiranPOS — Point of Sale Suite — *Flutter, Desktop*

Developed a desktop point-of-sale system with real-time inventory adjustments and secure checkout billing modules. Distributed to clients as signed desktop builds.

NiranPOS Web Platform — *Next.js, Tailwind CSS*

Built a conversion-focused product site at niransoft.com/NiranPOS with fully responsive layouts.

Trundle App — *React Native, Location APIs*

Developed a map-integrated travel discovery tool combining real-time positioning with smooth native navigation patterns.

Google Play — Trundle
