Frontend Developer | Mobile App Developer

PROFESSIONAL SUMMARY

Highly motivated **Frontend & Mobile App Developer** with **1+ year** of professional experience building high-performance cross-platform applications using **React Native, Flutter, React.js**, and **Next.js**. Delivered **6+ production-ready** web, mobile, and desktop systems. Proficient in robust state management (**Redux, Flutter Bloc**), UI optimization, responsive styling, and native third-party SDK integrations. Combines a disciplined engineering background and QA-informed problem-solving mindset to build robust, user-centric products optimized for speed and modern business scalability.

TECHNICAL SKILLS

Mobile Development: React Native, Flutter

State Management: Redux, Flutter Bloc

Web Development: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3

Styling & UI: Tailwind CSS, Responsive Design, Material UI

Tools & Architectures: GitHub, Postman, RESTful APIs, CI/CD Baselines

Testing & Quality: Manual QA Testing, Cross-Device UI Verification, Bug Tracking

Target Platforms: Web, Android, iOS, Desktop (Windows)

AI Workflows: AI Prompting, Claude/GPT API & Tool Integration for workflow acceleration

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER & MOBILE APP ENGINEER

NiranSoft Technology Pvt. Ltd

March 2025 – Present

Ariyalur, Tamil Nadu

- Cross-Platform Development:** Architected and deployed stable cross-platform mobile apps for **Android, iOS, and Desktop** using **React Native** and **Flutter**, maintaining **98% crash-free sessions**.
- Web Performance:** Built fast, production-ready web environments using **Next.js** and **Tailwind CSS**, introducing optimization tactics that enhanced SEO scores and accelerated page load times by **~25%**.
- State Architecture:** Implemented scalable state ecosystems via **Redux** and **Flutter Bloc** across multiple active enterprise codebases, resolving memory leaks and complex data-flow synchronization bugs.
- API & SDK Integration:** Integrated **REST APIs** and advanced third-party real-time SDKs (including **LiveKit** video streams) to enable robust live interactive features.
- Delivery Ownership:** Directly managed lifecycle delivery of **6+ custom client-facing applications** from concept to production deployment, ensuring **100% on-time** milestone achievement.

- **AI-Accelerated Workflows:** Leveraged AI prompting configurations and tools to automate boilerplate modules, accelerating feature deployment speed by nearly **30%**.

FRONTEND DEVELOPER INTERN

Netaxix

2024 (2 Months)

Tamil Nadu

- Developed responsive web page layouts using **HTML5**, **CSS3**, and **JavaScript**, converting design mockups into pixel-accurate, cross-browser compatible interfaces.
- Implemented interactive UI behaviour with vanilla JavaScript (DOM manipulation, form validation, event handling) and assisted the team with bug fixes and cross-device UI verification.

FEATURED PROJECTS

Sybo Avatar App — React Native, LiveKit SDK

Engineered a production-scale real-time video streaming app rendering custom avatars seamlessly across cross-platform environments. Integrated the **LiveKit SDK** for low-latency voice/video streams, multi-user text chat, and high-performance interactive UI modules.

Sybo Website — PHP, JavaScript, Responsive Web Architecture

Designed and developed the fully responsive corporate showcase interface at **sybo.ai** using optimized CSS/JS layouts.

Alley App — Flutter, Flutter Bloc

Built a high-performance visual asset portfolio application deploying **Flutter Bloc** to handle complex multi-tier asynchronous states. Optimized asset loading speeds and implemented localized image-caching layers to secure smooth UI animations and interactions.

NiranPOS — Point of Sale Suite — Flutter, Desktop Engine

Developed a comprehensive desktop-based commercial point-of-sale system offering advanced real-time inventory adjustments and secure checkout billing modules.

NiranPOS Web Platform — Next.js, Tailwind CSS

Built a conversion-focused web hub (**niransoft.com/NiranPOS**) to feature product specifications with highly fluid responsive layouts.

Trundle App — React Native, Location APIs

Developed a modern map-integrated travel discovery tool combining real-time positioning metrics with native smooth navigation patterns.
